

I don't see why you wanna limit XM Radio from giving as Instant Traffic & Weather Reports... so far this is the only way I can really trust all over the nation, I am a Truck Driver, and as a Driver, let me tell you that this the Best ever happen to many of us, users of this Great XM RADIO service. Truck is our home for most of us, and since we spent most of our time in it, we want to enjoy the ride, and part of the enjoyment is XM RADIO. I know there are more importan things that you guys can focus on, instead of making it harder fo us.

Regards.
